

Proposal for Employer-Sponsored Telemedicine Services

Company Certifications

LoginClinics is a woman-owned and operated medical practice located in Youngsville, NC. Managing member, Jaclyn Qualter, RN, MS, APRN-BC, A-CTTP is a nurse practitioner and certified telehealth and telemedicine provider with over twenty years healthcare experience. Jaclyn and her provider colleagues are also certified DOT medical examiners.

Project Approach

For many small business owners, offering an affordable medical insurance plan is not possible. The plan price is typically too expensive for the employer and/or the employee. LoginClinics believes small business owners can attract and retain more qualified employees if they are able to offer some type of health insurance benefit. Because of this, LoginClinics offers an employer-sponsored telemedicine subscription for employees and their immediate family members. For just \$8 per employee, per month, (or \$14 per family, per month) employees can utilize LoginClinics' telemedicine services, which include evaluation, diagnosis and treatment for minor illnesses needs. It is up to the employer to decide which plan they would like to sponsor for their employees. LoginClinics bills the employer monthly, for all those enrolled. Enrollment can change month-to-month as needed, or a flat rate can be provided monthly and re-evaluated yearly. The employee or family member is responsible for a \$20 copay at the time of service.

Employer Cost

1 - 10 Employees	\$80 per month
10-20 Employees	\$160 per month
20-30 Employees	\$240 per month
1 - 10 Employee + Family	\$140 per month
10 - 20 Employee + Family	\$280 per month
20 - 30 Employee + Family	\$420 per month

Additionally, if your employees are a part of our telemedicine subscription plan, those 13 years of age and over can utilize our clinic in-person and receive a discounted rate of 10% off our self-pay fee schedule just by being your employee!

Dedicated Site Staff & Virtual Support

Krystal Gill, RT, Clinical Coordinator

Krystal is a radiology technologist and medical assistant. She helps manage our schedule, daily activities, medical records, billing and other things! Krystal can be reached at any time, by phone or text: (919) 679-1880 or by email: krystal@loginclinics.com.

Jaclyn Qualter, RN, APRN-BC, A-CTTP, Nurse Practitioner and Founder

Jaclyn is the founder and managing member of LoginClinics. Ms. Qualter has twenty years of combined experience in emergency medicine, cardiology, vascular surgery and trauma medicine. She is also a certified telehealth and telemedicine provider. She is passionate about health, individuals, quality, employee satisfaction and client success.

Tyler Jackson, EMT-P, Paramedic Supervisor

Tyler is an active paramedic and field training officer for Franklin County, EMS. He has direct managerial experience and is currently studying healthcare administration at Liberty University. Tyler manages our EHS arm of our practice. He supervises our safety medics, performs CPR training and house calls when needed.

Danny Phillips, MD, Collaborating Physician

Dr. Phillips is a board-certified emergency medicine physician and Veteran. He has been in practice since 1994 and has worked at Duke Regional Hospital and MedAccess Urgent Care. He assists NC Baptist on Mission in many facets- including medical mission trips to Haiti and Eastern Europe. Dr. Phillips serves as a consultant to the LoginClinics staff and owner when needed.

Communication

LoginClinics staff will work with you and your management to establish a regular communication cadence. We expect communication protocols to evolve based on project stage and circumstances on the ground.

A telemedicine provider will always be accessible during normal business hours by calling the office at (919) 679-1880 or setting up an appointment at loginclinics.com.

Billing

NET 30 terms. Invoiced every month, on the 1st.

PROPOSAL SUMMARY & SPECIFICIS

Health insurance is expensive and difficult to navigate. It is becoming nearly impossible for small and mid-sized businesses to provide health insurance for employees due to constantly increasing costs. As a result, everyone, including healthcare providers suffer and the "care experience" gets worse.

LoginClinics offers high-quality, cost-effective care by cutting out the insurance companies and providing "direct care" to individuals and families. Employers can now subscribe directly with LoginClinics on behalf of their employees to provide healthcare employees and their families using our **Telemedicine** services.

With LoginClinics, employers save money and have a partner dedicated to keeping employees healthy and productive. Employees (and their families) have access to care from anywhere without the hassle of driving and waiting or the burdens of insurance paperwork and tracking reimbursements.
